TO: Susan White DATE: 11/10/00

DEPT: \_\_\_\_\_ PAGES: 1

(INCLUDING THIS COVER SHEET)

FROM: J. Pappas

FAX No.: 801-359-3940

SUBJECT: Handscrabble Acreage

**COMMENTS:**

Susan,

Had Auto Cad Guy generate Acreages off Exhibit 3.3-23.  
They are as follows: 1) Limit of Reclamation 36.76 acres;  
Goose Island 2) Red Area (All) 8.79 acres, 3) Green Area (excluding small piece in Goose  
Island 27.97 acres, 4) Substation area (white) 0.17 acres, and  
5) Road (Grade to substation) 1.21 acres.

The difference between 39 acres and 36.76 is 2.24 acres. This  
difference could be the area between the Limit of Reclamation  
boundary and the actual Disturbed Area boundary. Using a perimeter  
of 17,245.46 feet a difference <sup>on average</sup> of 5.66 feet between the two boundaries  
would equal 2.24 acres.

$$\begin{aligned} & 39 \text{ acres} \times 43,560 \text{ ft}^2/\text{acre} = 1,698,840 \text{ ft}^2 \\ & 36.76 \text{ ac} \times 43,560 \text{ ft}^2/\text{ac} = 1,601,266 \text{ ft}^2 \end{aligned} \left. \vphantom{\begin{aligned} & 39 \text{ acres} \times 43,560 \text{ ft}^2/\text{acre} = 1,698,840 \text{ ft}^2 \\ & 36.76 \text{ ac} \times 43,560 \text{ ft}^2/\text{ac} = 1,601,266 \text{ ft}^2 \end{aligned}} \right\} \text{Difference } 97,574 \text{ ft}^2 \text{ or } 2.24 \text{ acres}$$
  
$$\therefore 97,574 \text{ ft}^2 \div 17,245.46 \text{ ft} = 5.66 \text{ ft}$$
  
$$\text{CHECK: } 17,245.46 \text{ ft} \times 5.66 \text{ ft} = 97,609 \text{ ft}^2$$
  
$$97,609 \text{ ft}^2 \div 43,560 \text{ ft}^2/\text{ac} = 2.24 \text{ acres}$$

I will be in my office on Monday, unless something happens.  
Thanks.
