I believe that I have entered all the aforementioned. There is also the missing second quarter B-271 analysis. You will also notice that I have July and September well level data. For some reason I had my head somewhere where the sun doesn't shine and I monitored what I thought was for the fourth quarter that wells on September 26 and 27. It's amazing where I had my head for two days!! I will make the effort to re-check the wells during the fourth quarter if the access is not restricted by inaccessible road conditions.

Download the data.
