Subject: Re: Castle Gate 2nd Qtr Water Sampling

Dennis,

I have uploaded all of the information for Castle Gate from the pipeline into the permanent database. A report is attached.

It seems like you have included all required samples and parameters for the second quarter of 2006. This will be verified by the assigned hydrologist, you may want to verify for yourself first to avoid having delinquent data. If you do not know how to check the data in the database, please let me know and I can send you instructions.

Please let me know if you have any questions.

Thank you,

Dana Dean, P.E.
Senior Reclamation Hydrologist
Utah Division of Oil, Gas, and Mining

Pam,

The Castle Gate second quarter water sample data in the pipeline and ready to be uploaded.

Thanks,

Dennis
