Dennis. Thanks for the update. That would be fine. Pam

Pam,

I will put the 2006 annual reports for the Willow Creek Mine and the Castle Gate Mine in the mail to the SLO today; however, I have an issue with the Star Point Mine annual report. As part of the Star Point Mine 2006 annual report I will be including a year-four vegetation study performed by Mount Nebo Scientific (Patrick Collins). The problem is that I will likely not receive the vegetation study data from Patrick until Friday, March 30th which will cause the report to be late if mailed to the SLO. My question is, may I take the annual report to the PFO on Friday to be date stamped in or will it be necessary for me to drive the report to the SLO on Friday?
