2. Signs and Markers

Some of the Permittee identification signs have received vandalism from gunfire. All remain legible.

13. Revegetation

Mr. Ware stated that the Sowbelly reclamation area (sub-Canyon off of Spring Canyon) was now in year 11, with all of the required vegetation studies having been completed. It is the Permittee's intent to apply for a Phase III bond release for the entire Sowbelly disturbed area, with the exception of the reclaimed electrical substation area. The Hardscrabble Canyon reclaimed disturbed area (up-Canyon of Martin, Utah) will have been reclaimed for ten years in 2008, with the exception of the electrical substation. The substation was reclaimed in 2002. Although under snow, the vegetation in the area of Adit #1 appears to be doing well.
