CC: OGMCOAL

Hi Dennis,

I believe Steve is out on Vacation this week, so he probably won't get this until he gets back. Sounds like you are having all kinds of computer issues. In light of that, your request for additional time to submit the required information seems justified. An extension is hereby approved to July 22, 2011 as requested. Thanks and we'll look forward to hearing from you.

Steve,

I lost the hard drive on my computer over a month ago and have lost a lot of permit data. We have send my hard drive to an outside specialty company who is the process of trying to recover the data but this effort is taking much longer than anticipated. Since my annual reports were on my hard drive and this data has yet to be recovered I would appreciate it if you would send me an email with an electronic copy of these annual reports.

I have received the letters from the division asking me to submit O&C information that was provided in my 2010 Annual Reports as an amendment to the permits for Castle Gate, Star Point and Willow Creek. Due to the loss of my computer hard drive followed by numerous problems getting reconnected to the corporate database I have yet to gain access to the O&C corporate database. While the computer experts tell me they expect to have me connected before the week is out it will not be soon enough to meet the Divisions request to have the O&C amendments to the permits by July 7th. As a result of these problems I am requesting an extension of time to submit the requested O&C amendments. In order to insure that I have enough time to get reconnected to the corporate database and prepare the requested amendments I hereby request a submission date of July 22, 2011.

Respectfully,

Dennis Ware
