1. Permits, Change, Transfer, Renewal, Sale

There are two sub-stations and a small area (Adit #1) that have not received bond release. The permit expires on December 23, 2014.

2. Signs and Markers

Identification signs are at the gates to the property. The identification signs meets the minimum requirements of the R645 Coal Rules.

3. Topsoil

All topsoil was used in reclamation.

4.a Hydrologic Balance: Diversions

Diversions are opened with no signs of erosion from the winter.

4.c Hydrologic Balance: Other Sediment Control Measures

The reclaimed site is pocked for sediment control. I did not see any sediment going off site.

8. Noncoal Waste

The site was clear of non-coal waste materials.

10. Slides and Other Damage

No slides or damage was noticed during the inspection.

12. Backfilling And Grading

The sites are completely reclaimed. All backfilled material was used. The three sites meet AOC in my opinion.

13. Revegetation

The site in my judgment is highly vegetated in the summer.

19. AVS Check

AVS checks are made in Salt Lake City. The ownership and control information will be evaluated as part of the annual report review for the calendar year 2012 due at the end of March 2013.

21. Bonding and Insurance

The bonding amount is \$490,100. The insurance policy will expire on Dec. 13, 2012. The bonding amount will be adjusted in the near future.
