DIVISION OF
OIL, GAS & MINING

Mr. Cleon B. Feight, Director
Division of Oil, Gas & Mining
4241 State Office Building
Salt Lake City, Utah 84114

Dear Mr. Feight:

Attached is a copy of the water quality data for the Skyline Project for the third quarter of 1982. These data are a complete set of replacement pages for Volume 2, and should be used in conjunction with the data and with the station map previously transmitted.

The tabulations include a partial listing of flow data. Flow gauge calibrations are primarily deficient in the low flow regimes. Since most stations this year have not experienced the normal low flows common to late summer, the calibration effort will of necessity be continued into 1983.

Sincerely,

Keith W. Welch
