DIVISION OF OIL, GAS & MINING
355 West North Temple
3 Triad Center, Suite 350
Salt Lake City, Utah 84180-1203

Dear ^{Wayne} Mr. Hedberg:

In your February 13, 1986 letter you expressed a concern for providing adequate erosion control measures in sections of the diversion ditch beneath BC-12 where runoff velocities may contribute to excessive erosion.

On March 14, 1986 Keith Zobell and Keith Welch discussed this problem with Rick Summers of your staff. At that time it was agreed upon that Utah Fuel Company would line the short section of diversion ditch, where the increased velocities may cause erosion. The ditch is to be lined with 2 inch minus ballast material.

The snow covering this diversion ditch has melted, and we have lined the ditch as agreed upon with Rick Summers. This action completes our required action for the conditional approval for removal and disposal of sediments from the sedimentation pond.

Sincerely,

For Glen A. Zumwalt
Vice-President/General Manager
