DIVISION OF  
OIL, GAS & MINING

SMO/UMI 850.14 Examinations:

Mr. Ron Daniels  
 Division of Oil, Gas & Mining  
 335 West North Temple  
 #3 Triad Center - Suite 350  
 Salt Lake City, UT 84180-1203

and blasting certification shall be approved by a board of examiners who shall meet the following qualifications:  
 1. Five years practical experience in blasting prior to taking the examination.

Dear Ron:

Attached you will find a proposed annual retraining plan submitted to us by Utah Fuel Company. It would be our intention to allow its use by U.S. Fuel to recertify surface blasting personnel. I have discussed this plan and associated questions with Walt Axelgard at some length. The program appears to be an excellent one. Our concern is in who would authorize its use and under what conditions. Since the Division of Oil, Gas and Mining would be the agency that deals with and is responsible to OSM, we are recommending your ruling on this decision.

I personally recommend and Mr. Axelgard has also recommended approval of this training plan as presented. If you recommend that we handle this issue internally, we will implement the approval. Please advise me of your decision.

Sincerely,

  
 Richard G. Robinson  
 Chairman  
 CEU-Mining Department
