RE: ANNUAL REPORT FOR 1986 - SKYLINE MINE

Dear Mr. Braxton:

The annual report required by UMC 784 is either attached or was submitted on February 29, 1987 as part of the Mining and Reclamation Plan renewal. These reports include all pertinent data obtained during 1986.

No vegetation data were collected or revegetation success monitoring accomplished during 1986. The first subsidence monitoring is scheduled to begin in 1987.

The only unresolved permit stipulation deals with big game crossing of the conveyor system. A monitoring plan to evaluate acceptance or rejection of the conveyor by big game was submitted in December of 1983 as required by an OSM stipulation. A response to this submittal has not yet been received.

Please call if you have questions.

Sincerely yours,

Vernal J. Mortensen
 Senior Vice President
