Re: Five Year Renewal - Skyline Mine Permit

Dear Ms. Nielson:

Utah Fuel Company had previously requested a February 15th resubmittal date for our Skyline Mine Five Year Permit renewal. You confirmed this date was acceptable in your January 29, 1987 letter. We have repackaged our Mining and Reclamation Plan to include all of the pertinent background information as requested by the Division. This action has resulted in the expansion of the renewal submittal from three volumes to eight volumes. This data is currently being reviewed and updated for inclusion in the current plan.

We will be conducting our final in-house review the week of the 15th, and then will be prepared to reproduce the volumes required for submittal. This schedule has been discussed with Ken May and will allow us to get a complete package to your office by month's end. Utah Fuel Company respectfully requests the submittal deadline be extended to February 27th.

Sincerely,

Glen A. Zumwalt
Vice President/General Manager
