Dear Mr. Zumwalt:

Re: Division Review of PAP Amendment, Request to Delete Undisturbed  
Drainage Ditches from MRP, Utah Fuel Company, Skyline Mine,  
ACT/007/005-87C, Folder #3, Carbon County, Utah

The Division has completed its review of the above referenced PAP amendment. The plan was received from Utah Fuel Company on October 19, 1987 and was reviewed by Rick Summers, Reclamation Hydrologist. The proposed change to the approved MRP has been found technically inadequate for approval at this time. Please refer to the attached technical memorandum for an explanation of the PAP amendment assessment.

The Division will reconsider this amendment request if the operator provides additional documentation to address the technical concerns as outlined in the technical memorandum. As always, please call should you have questions or need additional information pertaining to this review.

Sincerely,

D. Wayne Hedberg  
Data Management Coordinator
