RECEIVED  
SEP 26 1988

DIVISION OF  
OIL, GAS & MINING

Dear <sup>Lynn</sup>Mr. Kunzler,

For some time Utah Fuel Company and the Division have been discussing the revegetation problems associated with the steep slopes along the conveyor bench here at the mine. In cooperation with the U.S. Soil Conservation Service and the Division, a plan has been developed for these problem areas. We are enclosing a copy of this plan for your review. If this plan is acceptable to the Division, we will incorporate it into the renewal of our M&RP. Also, if it is acceptable, we would like to initiate some of the seeding trials as outlined in the plan yet this fall.

If you need any additional information, please contact us.

Sincerely,

Glen A. Zumwalt  
Vice-President/General Manager
