DIVISION OF OIL, GAS & MINING
355 west North Temple
3 Triad Center, Suite 350
Salt Lake City, Utah 84180-1203

Dear *Lowell* Mr. Braxton:

Attached are eight (8) copies of Maps No. 3.1.2-1 (South Fork Breakout Vicinity Map) and Map No. 3.2.1-3 (Loadout Facility, drainage and permit boundary map). We have added the drainage area to Map 3.1.2-1 and have added our stoker storage tanks and exempt areas to Map No. 3.2.1-3. We anticipate starting construction of our stoker storage tank within the next few days. We have also enclosed a copy of a letter from the Division of Environmental Health stating that we do not need an approved order for this new facility.

Sincerely,

Glen A. Zumwalt

Dear Mr. Zumwalt:

Re: Notice of Intent Dated July 6, 1988; Approval Order Not Needed

We have reviewed your notice of intent dated July 6, 1988 in which you are proposing to expand the stoker coal storage and handling facility at the Skyline Mine. According to your emission calculations, the emissions from these proposed changes will be 0.0032 tons per year. I have therefore determined that an approval order for the proposed changes will not be required.

If you have any additional questions on this notice of intent, please contact David Kopta at (801) 538-6108.

Sincerely,

F. Burnell Cordner
