RE: ANNUAL REPORT FOR 1987 - SKYLINE MINE

Dear Mr. Braxton:

The attached annual reports as required by UMC 784 are herewith submitted. These reports include all pertinent data obtained during 1987, except as noted below.

No vegetation data were collected or revegetation success monitoring accomplished during 1987. An aerial survey of the 1987 subsidence has been completed. However, the report was not received by Utah Fuel Company in time to meet the March 31, 1988 submittal deadline. This report will be submitted by April 30, 1988.

There are no permit stipulations which require current action. Special stipulation number 10 requires air quality monitoring upon completion of the Eccles Canyon conveyor. The conditions of this stipulation will be implemented at the appropriate time.

Please call if you have questions.

Sincerely yours,

Hal E. Carter for Glen Zumwalt

Glen A. Zumwalt
Vice President/General Manager
