Re: South Fork Breakout, Utah Fuel Company, Skyline Mine,
ACT/007/005-88G, Folder #2, Carbon County, Utah

Dear Mr. Zumwalt:

Recently, I received a letter from Susan C. Linner, Permit Supervisor/Reclamation Biologist, concerning the above referenced project. In reviewing the written document and map #3.1.2 (3-2D), it would appear that it will be necessary for you to file a Permit Application for any stream crossings or other stream disturbances pertinent to this stream project. Therefore, enclosed are the appropriate forms, and the publication discussing the Utah Code applicable to this application. Processing time for such an application requires approximately forty days prior to your being ready to construct.

If you have any questions concerning the enclosed, please feel free to contact me. I will be more than happy to discuss this matter with you.

Sincerely,

Mark P. Page
Area Engineer
