Dear Dr. Nielson:

Submitted herewith are two (2) copies of the revised portions of the application to renew the Skyline Mining Permit. These updated documents respond to the Technical Deficiency Review by your staff dated September 12, 1989 and to comments by the Forest Service under cover letter dated September 26, 1989, and constitute a update to our August 21, 1986 submittal.

Detailed instructions are attached for incorporating the documents into the previous submittal.

We again express our willingness to work closely with members of your staff during the final review process to answer questions or to provide additional information as necessary.
