Dr. Dianne Nielson, Director  
Division of Oil, Gas and Mining  
335 West North Temple  
3 Triad Center, Suite 350  
Salt Lake City, UT 84180-1203

Dear Dr. Nielson:

Enclosed is an updated computer printout of the water quality data for Coastal States' Skyline Coal Mines project. The tabulated data and statistical summary cover through the first quarter of 1989. Data from two new mine area stations, CS-14 and CS-15, have been added. Data from four monitoring locations at the waste rock disposal site have also been added but simply document that there has been no flow at these stations. A replacement monitoring station location map reflecting the addition of these stations is attached.

These updated pages are replacements for those pages previously submitted and should be appropriately inserted into your existing looseleaf document.

Sincerely,

*Keith W. Welch*

Keith W. Welch
