DIVISION OF  
OIL, GAS & MINING

Dear Dr. Nielson:

Re: Five-Year Permit Renewal Review, Utah Fuel Company's Skyline Mine

Attached herewith are 14 copies of Utah Fuel Company's response to the Division's November 30, 1988 review of the mining permit renewal application. Many of the items identified in the response letter were addressed in the applicant's December 1, 1988 submittal. All of the Division's concerns, as well as the USFS concerns as identified in their November 28, 1988 correspondence, have been herein addressed. However, some of the responses were simply to identify where the concerns were previously addressed.

Again, it is our desire to work with your staff in their continuing review and to provide additional information as required to reduce the necessity of permit stipulations. Questions should be coordinated with Mr. Keith Welch of our Salt Lake City office.

Sincerely yours,

*Keith Welch*
