Dr. Dianne R. Nielson, Director
Utah Division of Oil, Gas, and Mining
Department of Natural Resources
3 Triad Center, Suite 350
355 West North Temple
Salt Lake City, UT 84180-1203

Dear Dr. Nielson:

Enclosed for your information and review is a copy of the Draft Environmental Impact Statement (DEIS) for Questar Pipeline Company's Main Line No. 41 Reroute at SkyLine Mine.

There will be a 45 day review and response time for the DEIS. The review period will start on May 18, 1990, and will finish on July 1, 1990. If you have any comments on the DEIS, please submit them to the Forest Supervisor, Manti-La Sal National Forest, 599 W. Price River Drive, Price, Utah 84501. Comments will be accepted until the close of business at 4:30 p.m. on July 2, 1990.

In addition to receiving written comments, the Manti-La Sal National Forest will hold an open-house at the above address in Price, Utah, on June 13 and 14, 1990, from 1:00 p.m. to 6:00 p.m. to receive written or verbal comments and discuss concerns.

To be most helpful, comments should be as specific as possible and address the adequacy of the DEIS or the merits of the alternatives discussed (see Council on Environmental Quality Regulations for Implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3). Environmental objections that could have been raised at the draft stage may be waived if not raised until after completion of the Final Environmental Impact Statement (FEIS). The intent of the review is to ensure that substantive comments and objections are made available to the Forest Service at the time that they can be meaningfully considered for preparation of the FEIS.

If you have questions, please call our office in Price, Utah, on weekdays from 8:00 a.m. to 4:30 p.m. (telephone number 801-637-2817).

Sincerely,

George A. Morris
GEORGE A. MORRIS
Forest Supervisor

Enclosure

*Darren I'd suggest you or
some one attend the 6-14 session and
wrap for SOBm what the issues of that
and the previous log were L135-14*
