Dear Mr. Haddock:

Enclosed are amended pages 4-77, 4-77A, 4-77B, and 4-78  
of our Mining and Reclamation Plan, as well as amended drawing  
4.17.1-1. These amendments should address the concerns of the  
U.S. Forest Service regarding 50% extraction beneath the pipeline  
buffer. All references to 50% extraction have been removed.  
All references to mining beneath stream buffer zones without approval  
have also been eliminated.

We appreciate your review of this amendment. Please contact  
Mark Bunnell of my office if you have questions or concerns.

Sincerely,

  
Glen A. Zumwalt  
Vice President/General Manager
