Dear Mr. Haddock:

**REFERENCE: FIVE YEAR PERMIT RENEWAL,
UTAH FUEL COMPANY, SKYLINE MINES**

Utah Fuel has been working on the deficiencies for the renewal of the Skyline M&RP renewal. As you are aware from past discussions, a number of issues are under current review for proper resolution. We are also quite busy with the construction season, and other pressing permitting requirements. Therefore, we would like to request an extension for the reply to the deficiencies to the Skyline M&RP renewal until September 30, 1992. We will also include with our reply the approved permit update for the overland conveyor and incorporate the Division order to annually report the vegetative monitoring on the conveyor cut slopes.

Sincerely yours,

Glen A. Zumwalt
