MEMO TO: Dianne Nielson, Director
FROM: *OB* Priscilla Burton, Inspector
RE: SCS information submitted in the Appeal of Fact
of Violation 92-37-1-1.

SUMMARY:

There were three Experimental Trials and six Practices described in the SCS plan included in Volume A-2 of the MRP (please see the attached outline).

The SCS has been observing the Plant Material Trials each summer. This is Experimental Trial #3 on the attached outline. As mentioned by George Cook in a letter to Keith Zobell (3/17/92), "good information" remains to be obtained for Experimental Trial #3. With this submittal, the SCS provided a copy of the calculations used to determine seeding rates on Experimental Trial #3 and a copy of the plot layout. The submittal **does not** contain copies of field notes from the evaluation dates. There are no references to the evaluations of any other Experimental Trials or Practices described in the Vol A-2 plan, in this submittal.

In a separate memo, Paul Baker has summarized the revegetation monitoring requirements which were written into the MRP.
