Mr. Vernal Mortensen, Senior Vice President
Coastal States Energy Company
175 East 400 South
Salt Lake City, Utah 84111

Dear Mr. Mortensen:

Re: Deficiency review of Conveyor Revision, Coastal States Energy Company, Skyline Mine, ACT/007/005, Folder #3, Carbon County, Utah

The Division has completed review of the Skyline Overland Conveyor revision including subsequent submittals. At this time it appears that most of the deficiencies pointed out in the Division's March 6, 1992 letter have been addressed, however there still remain a few issues that require your further attention. These issues are pointed out in the attached technical review documents. Please review them and respond to the deficiencies as quickly as possible. You should note that deficiencies in Rick Summers' review are under the heading of "compliance" and that certain items have been assigned specific dates for completion. Those dates were intended to provide for a conditional approval of the revision. At this time you should respond to all of the deficiencies at one time with one submittal.

Thank you for your cooperation. If you have questions please call me or the appropriate member of my staff.

Sincerely,

Daron R. Haddock
Permit Supervisor
