Dear Mr. Zumwalt:

Re: Approval of Plans Under Division Orders 92A and 92B, Coastal States Energy Company, Skyline Mine, ACT/007/005-92C, Folder #3, Carbon County, Utah

The Division has reviewed your amended plans written to satisfy Division Orders #92A and #92B. You previously received verbal approval to proceed with the construction as outlined in your plans and this letter signifies formal written approval of your plans. At this time you should submit 12 additional copies of your amended plans to update other agencies copies of your MRP. These should be submitted by September 10, 1992.

You should also bear in mind, your commitment to "examine the rest of the conveyor bench, and determine what changes need to be made, and submit an additional proposal that can be accomplished in conjunction with the construction of the overland conveyor, with the objective of working towards final reclamation."

Please call if you have any questions.

Sincerely,

Daron R. Haddock
Permit Supervisor
