Dear Mr. Zortman:

Forest Service personnel have inspected drilling locations associated with Utah Fuel Company's Joint Venture coal exploration project within the Skyline Mine Permit Area and Coal Exploration License U-54165 (previously 52353) issued to Getty Oil Co. on July 20, 1984 (modified in 1985). Both projects were completed in 1985.

All of the sites were found to be successfully reclaimed and revegetated in conformance with established standards. We recommend that any remaining bonds be released and the files closed.

If you have any questions, contact us at the Forest Supervisor's Office in Price, Utah.

Sincerely,

/s/ Aaron L. Howe
