Re: Scofield Waste Rock Disposal
Certified Report of Activities

Dear Mr. Haddock,

Attached is our certified report of activities at the Scofield Waste Rock Disposal site for the second quarter of 1993. No inspection on activities occurred at the site due to deep snow(s) during the first quarter of 1993.

A sample of the gob material has been taken and as soon as the laboratory report is received on the sample, it will be forwarded to you.

Sincerely,

Keith Zobell
Environmental Engineer

I, Carl W. Winters, do hereby certify that during the second quarter of 1993, approximately 2,850 cubic yards of gob material was hauled to the Scofield Waste Rock Disposal site. All material was spread and compacted into lifts not exceeding two feet in depth. Inspections of the site did not reveal any appearances of instability, structural weakness, or other hazardous conditions.
