Dear Mr. Carter,

Enclosed is an updated partial computer printout of the water quality data for Coastal States' Skyline Coal Mines project. The tabulated data and statistical summaries, herewith submitted, cover a period through the third quarter of 1993, but include only those pages which have been changed during the quarter.

These updated pages are replacements for those pages previously submitted and should be appropriately inserted into your existing loose-leaf document. The new monitoring station, Well #92-91-03, located at the waste rock disposal site, is to be added at the back of the data section. An updated site location map is also enclosed.

Sincerely,

Keith W. Welch
