TO: Darron Haddock, Permit Supervisor
FROM: Thomas Munson, Senior Reclamation Hydrologist *TM*
RE: SW-4 & DD2 Drainage Changes, Skyline Mine, US Fuel Co.,
ACT/007/005- 92M, File Folder #2, Carbon County, Utah.

Synopsis

The Division received calculations and as-built plans for diversions implemented as part of the Conveyor tunnel upgrade. This memo reviews this submittal.

Analysis

Based on the review of the submittal and conversations with the operator the same peak flows used for DD-4 were used to size this swale and concrete box section. Assuming these numbers are correct based on previous Division reviews, the plans submitted are considered accurate and complete. The calculations have been verified and are also accurate. This amendment should be approved and inserted into the PAP.

Recommendation

This amendment be approved and inserted into the PAP.
