Salt Lake City, Utah 84180-1203

ACT/007/005 #2

Dear Lowell:

The Bureau of Land Management and the Forest Service will be evaluating an application by Coastal States Energy Company to lease federal lands in Carbon County for coal development. The proposed Winter Quarters Lease Tract (UTU-67939) lies adjacent to the northern boundary of Coastal States Energy Company's Skyline Mine Permit Area, as shown on the attached map. Coastal States Energy Company's application states that they intend to mine the proposed lease using existing portal facilities associated with their Skyline Mine.

This application will be processed under the Lease on Application procedure adopted by the Uinta-Southwestern Utah Coal Region. The proposed tract encompasses 3,351 acres of federal coal lands. The surface of the proposed lease tract includes approximately 400 acres of private lands and 2,951 acres of National Forest System lands managed by the Manti-La Sal National Forest. The Bureau of Land Management administers the subsurface mineral estate.

The subject lands have been determined to be suitable for further consideration for coal leasing under existing Bureau of Land Management and Forest Service land use plans. The Bureau of Land Management and Forest Service will jointly evaluate the tract on a site-specific basis for leasing in accordance with the requirements of Federal Regulations 43 CFR 3400 and the National Environmental Policy Act of 1969 (NEPA). If offered for lease, the tract will be leased on a competitive basis.

Further information can be obtained by calling Dale Harber at (801) 637-2817. Public comments will be accepted at the Manti-La Sal National Forest, 599 West Price River Drive, Price, Utah 84501, until March 18, 1994.

Sincerely,

*Leland A. Matheson*
