FROM: Daron R. Haddock, Permit Supervisor 

RE: Portal Construction for Lower O'Connor Coal Seam, Coastal States Energy Company, Skyline Mine, ACT/007/005-94C, Folder #2, Carbon County, Utah

Coastal has completed the necessary requirements to affect a permit change to allow the construction of new portals in the Lower O'Connor coal seam at the Skyline Mine. Deficiencies identified in August 11, 1994 correspondence have been adequately addressed. Coastal's plans for construction of the portals should be approved and the associated plan for blasting should also be approved with the following condition.

Permission to conduct nighttime blasting is approved but may be withdrawn at any time at the Division's prerogative. Nighttime blasting should be conducted only as necessary.
