Re: Subsidence Mitigation Plan approval, Coastal States Energy Company, Skyline Mine, ACT/007/005-93-O, Folder #3, Carbon County, Utah

The Division has completed a review of your amended plans for subsidence mitigation including your response to our December 8, 1993 deficiency letter. Your plans are considered to be complete and accurate and are acceptable for insertion to your Mining and Reclamation Plan. Amendment 93-O is hereby approved.

Although your plan is considered adequate at this time, we do have some concerns that Skyline may not receive full credit for the wildlife enhancement measures that are being undertaken in conjunction with DWR and the Forest Service. You may want to include some of the work done in this regard in the future as more information becomes available. Thank you for your help during the permitting process.

Please call if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Daron R. Haddock".

Daron R. Haddock
Permit Supervisor
