RE: Mine Plan Maps, Canyon Fuel Co., LLC, Skyline Mine, ACT/007/005, File #2, Carbon County, Utah

Summary:

On June 16, 1997, the Division received from Canyon Fuel Company, LLC, the updated mine maps for the Lower O'Connor B Seam, the Upper O'Connor Seam, and the Lower O'Connor A Seam.

Technical Analysis:

On June 16, 1997, the Division received updated mine maps for the Skyline Mine. The updated mine maps show the modified mine plans. The Operator modified the mine plans when they obtained new information about mining conditions.

On July 9, 1997, I called Steve Demczak for technical information about the mine maps received on June 16, 1997. Steve informed me that the BLM and MSHA had approved the maps. I reviewed the maps and found they adequately show the location of past and future mining activities. The Operator met the requirements of R645-301-521.140 by giving the Division updated mine maps.

Recommendation:

Since the Operator has met the minimum requirements of R645-301-521.140, by giving the Division updated mine maps, I recommend that the Division approve the new mine maps.
