From: Stephen J. Demczak, Reclamation Specialist III 

RE: Road at Waste Rock Disposal Site, Canyon Fuel Company, LLC, Skyline Mine,
 ACT/007/005-97D, Folder #2, Carbon County, Utah

ENGINEERING

Analysis

The permittee has not identified the road classification as a primary or ancillary road. The road is proposed to be widened to accommodate heavy equipment. This constitutes a change to the road designs (R645-301-527.110).

Other questions needing to be addressed:

- a) Is this road to be used longer than six months (R645-301-527.122).
- b) Will this road be retained for post-mining land use (R645-301-527.123).
- c) Does the permittee need to comply with MSHA road regulations and is approval needed.

Findings

The engineering section can not be reviewed until the road classification is addressed by permittee.
