RE: Midterm Review, Second Extension Request, Canyon Fuel Company, LLC,
Skyline Mine, ACT/007/005-MT99

INCOMING

Dear Mr. Haddock:

On February 9, 2000, Skyline Mines requested an extension until March 8, 2000 for a response to the Division requests for a submittal of a M&RP modification to address the issue of reclamation of highwalls and cutslopes at the site. We have been working with Blackhawk Engineering to complete a new set of cross-sections of the mine site depicting the existing topography and the reclamation topography. From the se cross-sections, we will generate the reclamation topography. Unfortunately, with the revisions we have made to the base drawings Blackhawk has prepared for us, it has made meeting the March 6, 2000 deadline unattainable. At this time we respectfully request an extension of the deadline until March 22, 2000.

If you have any questions regarding this second request for an extension to the midterm review response, please give me a call.

Sincerely:

Chris D. Hansen
