INCOMING

Re: Swale Replacement with Culverts, Skyline Mine, ACT/007/005

To Whom It May Concern:

Enclosed with this letter are the C1 and C2 forms for an application for a minor permit modification to the Skyline Mine M&RP. The purpose of the permit modification is to allow for the removal of concrete swale SW-2. The swale was constructed in 1990 and over the years the traffic and weather have taken their toll, the swale is breaking up and needs to be replaced. The concrete swale will be replaced by three 18 inch diameter culverts. Installation of the culverts will be according to the manufactures instructions and will have a minimum of 12 inches of cover as established by the *Handbook of Steel Drainage & Highway Construction Products*. The water will be directed to the culverts using a concrete box inlet.

Call me at (435) 448-2620 if you have any questions regarding this submittal.

Sincerely,

Gary E. Taylor
Sr. Environmental Engineer
Canyon Fuel Company, LLC
