RE: Submittal of Final Clean Copies for the Revision to Include the UP&L Tract,
Skyline Mine, Emery County, Utah, Permit ACT/007/005.

Dear Daron:

Please find enclosed with this letter seven copies of the final clean copies of the permit modification application to the Skyline Mines Mining and Reclamation Plan to include the UP&L tract. This application consists of modifications to the existing M&RP made as a result of three of the Division's Technical Analysis of CFC's submittals to include the UP&L Tract. The UP&L lease (or tract) is located to south of and adjacent to the current mine permit area. The surface lands are privately owned. The total area of the tract is approximately 430 acres. No surface disturbance is planned for the UP&L tract at this time.

In preparing the final copies, some pages of text from the M&RP have not been modified as part of the M&RP modification to include the UP&L tract but are included herein. This has been done to avoid confusing pagination problems during the final permit modification.

CFC currently plans to begin development mining within the UP&L tract (outside of the Connelville Development Tract) by April 27, 2001 and longwall mining early the third quarter of 2001. We appreciate your patience and help in considering this submittal. If you have any questions, please call me at (435) 448-2669.

Sincerely,

Chris D. Hansen
