Subject: Skyline Mine UP&L Tract IB003

Daron:

As you are probably aware, Skyline was unable to submit a response by the January 9, 2001 deadline to the Division's TA of the application to amend the mine's M&RP to include the UP&L tract. This has not occurred because we are no longer interested or anxious. We, unfortunately, have had numerous other problems arise that verged on emergencies. We intend to submit our response within the next two weeks. We appreciate your patience in this matter.

Chris Hansen
