Subject: Re: Skyline Mine 4th quarter 2000 Water Monitoring Data

Hi All,

I just processed 65 samples from the 4th quarter 2000 for Skyline Mine. I had a nice email summarizing the sites, lab numbers and sample dates that were processed but that was lost when Email crashed. The 65 samples are now in the database, there are 6 samples that remain in the pipeline since they were not error free I could not process them.

Sorry the complete listing of processed samples got lost but that's life in the digital age.

Ken
