Subject: Re: Skyline Mine

Mike,

You're welcome. I will update you as information becomes available. I'm the Hydrologist working on the Skyline Mine, however, Daron Haddock is my supervisor and he is a Permit Supervisor. Our Coal Group works on a Team concept and people are assigned according to their skills and the needs of a project. There is a Soil Scientist, Priscilla Burton, and a Biologist, Susan White, also working on Mine Plan amendments related to this project. The main phone number for the Division of Oil, Gas, and Mining is 538-5340 and you can get anyone in our agency through that number.

Mike Suflita: My name is Mike Malmquist. I work with Dallin Jensen and James Lee and Parsons Behle & Latimer. Dallin provided me with a copy of your e-mail to him of October 5, 2001, and asked that I respond, first by thanking you for your quick response, second by asking you to keep us updated on any further developments regarding this issue, by e-mailing or calling me directly. As you can see, my e-mail is mmalmquist@pblutah.com. My phone number and mailing information, etc., is also provided below. By the way, are you the principal person who is working on this issue for the Division of Oil Gas & Mining, or is there a permit supervisor and/or other staff person involved? Thanks again. Mike Malmquist
