Re: Slurry Pumping-Underground, Canyon Fuel Company, LLC, Skyline Mine, C/007/005-AM01D, Outgoing File

Dear Mr. Meadors:

The Division received on June 22, 2001 an application to allow slurry to be pumped underground at the Skyline Mine. We anticipate completing this review by July 27, 2001. Mike Suflita has been assigned as the team lead on this project. A copy is being forwarded to the U.S. Forest Service for their review and concurrence.

Please be aware that discharge to an underground mine requires the approval of Mine Safety & Health Administration (MSHA) in accordance with R645-301-231.500. Please provide the MSHA authorization as quickly as possible.

If you have any question, please call Mike at (801)-538-5259 or me at (801) 538-5325.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".

Daron R. Haddock  
Permit Supervisor
