Dear Mr. Herkimer:

Enclosed are the December 2001, Discharge Monitoring Reports (DMR's), for Skyline Mines facility, permit number UT-0023540. The outflow from point 001 had one exceedance for the month and a notification letter was sent on 21 January 2002. Chronic quarterly testing of Fathead Minnows and Ceriodaphnia continues. The Ceriodaphnia failed the test due to a low reproduction rate of > 89%. Discharge points 002 and 003 had no outflow. *

Sincerely,

Gary E. Taylor
