RE: Modification to the M&RP to Include Appendices H and I in the Addendum to the Probable Hydrologic Consequences July 2002, Canyon Fuel Company, LLC, Skyline Mine, C/007/005

Dear Ms Grubaugh-Littig:

This submittal is being to include an interim report on the ground water model of the Skyline Mine Permit Area prepared by HCI and a report prepared by Petersen Hydrologic on the most recent results of the mines efforts in tracing dye that PacifiCorp placed in Electric Lake in February and April 2003. These reports are to be included in the Addendum to the Probable Hydrologic Consequences July 2002 as Appendices H and I. The inclusion of these reports into the M&RP was requested during the meeting held between CFC and its consultants and members of the DOGM staff on May 21, 2003 to discuss the status of the Skyline Mine Ground Water Model. This submittal includes completed C1 and C2 forms, four redline/strikethrough copies of modified text, and seven clean copies of text.

If you have any questions, please call me at (435) 448-2669. We appreciate your help in this matter.

Sincerely,
