Subject: 2nd Quarter 2003 Water Monitoring

Pam:

I have uploaded the majority of the 2nd Quarter 2003 water monitoring data for the Skyline Mine to the EDI. However, I have not been able to upload site CS-21 to the site as it appears it does not have an assigned site number in the system. Perhaps I am unable to find it. Please let me know if I missed it or if a site number has yet to be assigned.

On another note, I have paper copies of the August and September DMRs for the PacifiCorp UPDES discharge point at JC-3. However, PC has not forwarded to me their copies of the lab sheets used to determine their average numbers for the required parameters. I will drop the DMR sheets in the mail for now and try and sort this out with PC.

If you have any questions, please give me a call at (435) 448-2669. Thanks for the extra time to get this done. There are times when the electronic files we get from the labs are a nightmare.

Chris
