Pam:

This may come as a slight shock, but I have been able to upload the Skyline Mine 3rd quarter 2003 water monitoring data to the EDI! I have some water age dating information for JC-1 that still needs to be included but I thought we could at least get all of the water chemistries and flow into the system and the queue cleaned out. I will upload the JC-1 age data as soon as I get it all for the third quarter.

Thanks
Chris
