Chris,

Thanks, I uploaded the MC samples and changed the parameter requirements.

Your monitoring is now complete.

Please let me know if you have any questions.

Thank you,

Dana:

I believe it was erroneously entered as required. The permit does not require DO for the MC sites.
Thanks for the help.

Chris

Chris,

I have uploaded all of the ok'd Skyline samples from the pipeline. A report is attached.

You still need to either enter Dissolved Oxygen information for the MC sites, or send Gregg information on why it was not collected (copy me). That is the only way I can erase the parameter. If it is erroneously marked as required, let me know and I can change the requirements to match the MRP.

Please let me know if you have questions.

Thanks,

Dana Dean, P.E.

Pam:

I have uploaded the Skyline Mine 1st Quarter 2004 water monitoring data to the EDI. Several sites were not accessible during the quarter. Most of these sites are historically not accessible in the quarter because of deep snow/and or ice creating hazardous sampling conditions. I have recently submitted a permit modification to remove these historically inaccessible sites from the winter quarter water monitoring schedule.

If you have any questions or problems regarding this data, please let me know and I will make sure is rectified

Chris.
