Subject: North Lease Subsidence Submittal - Extension Request

Wayne,

Attached is a letter requesting a two week extension to the deadline to submit information for the North Lease Subsidence amendment. The extension should provide sufficient time for Jerriann to complete the research she wanted to conduct, schedule a meeting between Canyon Fuel and DOGM personnel, and allow sufficient time for Canyon Fuel to prepare the modifications to the amendment as defined in the upcoming meeting with DOGM personnel.

We'll be on 'stand-by', pending notification of the meeting scheduled by Jerriann.

Thanks,
Gregg Galecki
Environmental Coordinator - Skyline Mine

RE: Request for Extension of North Lease Subsidence Technical Analysis Response,
Canyon Fuel Company, Skyline Mine, C/007/005, Task ID #1976

Dear Mr. Hedberg:

Skyline Mine respectfully request the Utah Division of Oil, Gas, and Mining Coal Regulatory Program grant an extension of two (2) weeks to the April 25, 2005, deadline for responses to deficiencies found in the latest permit modification referenced above. While the deficiencies themselves are not difficult to address, our vegetation and biological specialist is working with the Division outlining specific responses. Coordination of a meeting with the necessary personnel has proven to be difficult. These modifications are necessary for us to satisfactorily complete our response to the TA. If the extension is granted as requested, the new deadline will be May 9, 2005.

Thank you for your consideration of this matter. If you have any questions, please give me a call at (435) 448-2636.

Sincerely,

Gregg A. Galecki
