RE: Canyon Fuel Company, LLC, Skyline Mines; Continued Mining in Federal Lease
UTU-67939 and L.M.U. U-0147570, commonly referred to as the "North Lease"

Dear Ms. Carlton:

As required by State mining regulations (R645-301-525.700), Canyon Fuel Company, LLC (CFC) Skyline Mines is notifying you of the mine's plan to expand mining into Sections 26, 34, and 35, in Township 12 South, Range 6 East, and Sections 2, 3, 10, and 11, in Township 13 South, Range 6 East, SLB&M. CFC currently holds the coal leases in this area, commonly referred to as the "North Lease" and plans to mine Federal Lease UTU-67939, and Federal L.M.U U-0147570 underlying National Forest lands in these areas. Mining is ongoing and will continue through approximately 2014. Longwall mining is projected to commence in early 2006. No subsidence or surface disturbance will occur as the result of developing the mains in any of the areas listed. Minor surface subsidence may occur in areas where longwall mining will be conducted, but no surface or ground water flows will be interrupted or diminished as a result of this mining activity. Copies of the mine plan may be examined at the Carbon County Courthouse or at the Utah Division of Oil, Gas & Mining offices in Salt Lake City, Utah.

If you have any questions regarding this letter or would like to discuss future mining plans for the above referenced sections, please call Gregg Galecki at (435) 448-2636 or me at (435) 448-2619.

Sincerely,
