Hi Dale,

I finally got a chance to locate all the macro and fish surveys since 2000. All the surveys are in or accompany the Annual Reports. All surveys from 2000 have been conducted or lead by Mt. Nebo, Dr. Shiozawa. I did not reread all the reports to determine if Shiozawa used the same method for each survey. Your staff may want to determine the adequacy of these reports. I have requested for re-do's on unclear data reporting, but not on methods.

I have attached a table showing the reports that we have. Let me know which reports you would like a copy. The 2003 reports are available electronically, but the previous years are not.

Thanks for your time,

Jerriann Ernstsens, Ph.D.
